

# Powering up performance.

GREENTEC Fast Performance.

Spies Hecker – simply closer.

- The GREENTEC logo stands for:
- VOC-compliant products
  - Optimum quality
  - Efficient processes.

## GREENTEC Fast Performance: *New products that will improve vehicle throughput.*

Time is money. Particularly in the workshop, efficient processes really count. Simple application, fast drying, optimum coverage equals savings of material. Refinishing professionals now have the right product system at their disposal. The new generation of the Spies Hecker GREENTEC product systems are not only VOC-compliant, but also powers up performance to speed up vehicle throughput in your workshop.

The GREENTEC product system.

**New**

**New**

### **Primat® 1K Wash Primer 4085**

Efficient application and very fast drying. Available in two shades of grey.

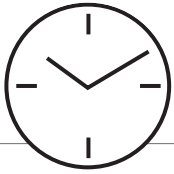

### **Permasolid® HS Express Surfacer 5250**

The strengths of the high quality 2K sanding surfacer are simple application and much faster air drying. And this is not all, for its excellent infrared drying properties make application highly reliable.

### **Permasolid® HS Wet-on-Wet Surfacer 5330**

Quick and simple. The surfacer for wet-on-wet application without sanding between coats and with high-speed flash-off. Guarantees outstanding paint flow. Ideal for use on new parts, highly reliable.

## The simplicity of a system.

The hallmark of the VOC-compliant GREENTEC product system is that all the materials are highly efficient and have immaculate mutually adapted characteristics. You can combine our GREENTEC classics with the new Fast Performance products with ease – an intelligent system for higher productivity!

## Our proven classics.

### Primat® Wash Primer 4075

This 2K Wash Primer is distinguished by its outstanding corrosion protection and ease of application.

### Permasolid® HS Premium Surfacers 5310

High yield thanks to its high solids content. Excellent paint flow and remarkable vertical stability.

### Permasolid® HS Vario Surfacers 8590

The established multi purpose surfacer, that can be applied as a wet-on-wet surfacer or high build for sanding, excellent for use over critical substrates.

### Permasolid® HS Clear Coat 8035

The versatile all-round clear coat for deep gloss. Simple to apply – in a single spray pass without flash-off between coats.

**New**

### Permasolid® HS Mixing Color Series 275

A model of efficiency for one-stage finishes. This high solids paint is distinguished by its outstanding gloss and flow. Drying can be accelerated considerably. In addition, this paint displays excellent polishing and application characteristics.

### Permahyd® Mixing Color Series 280/285

Easy to adjust to spray viscosity: Simply add 10% Permahyd® Demineralized Water 6000 – that's all there is to it! Thanks to its high pigmentation, optimum opacity is achieved. Only 1.5 coats are usually necessary.

### Permasolid® HS Optimum Clear Coat 8600

With a patented binder technology for easy application and extra-quick drying. Ideal for a high quality clear coat finish.
